Airen RedComp 7

Accessible and interesting model from eSATA serie. Back side can be assembled with one 80 or 92 mm fan, on the side can be placed one 80 mm fan (optional). We recommend to assemble with ultra silent Airen fans. Enough external and internal bays for additional devices guarantees easy case usage. RedComp 7 is suitable for ATX and MicroATX MBs and ATX PSUs. Front panel is equipped with two USB 2.0 ports, audio AC97 and eSATA connector. There are 7 PCI slots available in the case.
