

Airen RedMouseR Two

High-precision 6-button gaming ergonomic laser mouse in fashionable red-black design. Rubber scroll wheel is red underlighted. Adjustable resolution for easy moving from 3000 to 4000 dpi. For better grip are the keys rubber-oiled. Two multifunctional gaming keys enables quick and easy "up and down page". Mouse can be connected using USB port. Teflon pads make the mouse glide with less resistance over a surface.
